Medical Education 1989, **23**, 567–569

Subject Index

Academic Medicine: editorial 219
Achievement, and the making of a good doctor 3
student, from new group learning materials (pharmacology POPS) 307, *abs*
Admissions, comparison of performance, different high school systems, Kuwait 395
Africa, Ministerial Consultation for Medical Education, Abuja, 5–7 July 1989: summary report 560: editorial note 559
AIDS, implications for teachers of medicine to dental students 534
and medical students: correspondence 310
understanding blame: editorial 123
Anaesthetic uptake, computer simulation, evaluation of effectiveness 457
Announcements: 217, 318, 405, 476
Anxiety and study methods in preclinical students, causal relation to examination performance 416
Association for the Study of Medical Education Conference, September 1988, report 301: abstracts 305
Attitudes, change during medical education, retrospective study 19
to old people, medical students and career preference 81

Bad news, breaking, medical undergraduate communication skills teaching and learning 258
Belgium medical schools, student population changes and progress 39
Breaking bad news, medical undergraduate communication skills teaching and learning 258

Career aspirations, women doctors, qualified 1974 and 1977, United Kingdom 125: erratum 476
Changes in medical education 328
Child, institutionalized, learning experience for medical students 86
Clinical clerkship, first, effect on medical students' specialty choices 413
competence, education for 189
psychological tests to measure 492
in undergraduate psychiatry, factor analytic study 422
Cloze test of medical vocabulary 307, *abs*
Communication, practical, education for 189
skills teaching, curriculum, Maastricht Medical School 55
training for medical students, integrated approach 387
Community-based learning experience for medical students 86
Community medicine, setting educational priorities 429
Computed learning schemes 308, *abs*
Computer education, undergraduate medical students, 2-year experience 522
-enhanced learning in neuroanatomy 371
simulation of anaesthetic uptake, evaluation of effectiveness 457
Curriculum of communication skills teaching, Maastricht Medical School 55
Egypt and United States, collaboration between 333
implementation problems in in-service clinical education 282
medical, and health promotion 440
on medical ignorance 24
for the year 2000 221: report 301

Dental students, implications of AIDS for teachers of medicine 534
Diagnostic thinking inventory, development 306, *abs*
Disaster, stress and the doctor 91
Distance learning for general practitioners 308, *abs*
Doctorate of Medicine (Internal Medicine), West Indies University, assessment: documentry report 399
Doctors, qualifications, United Kingdom medical schools 1977 and 1983 62
Drug action, factors modifying duration, practical for large classes 409

Economics, and medical education 48
Editorials
Academic medicine 219
AIDS: understanding blame 123
The current place of learning objectives in paediatrics 407
Half our medical future 1
Pre-registration posts in general practice: the chance of a lifetime? 319
Problem-based learning 479
Empathy, increasing, among medical students 168
Environmental health, evaluation of introductory courses 297
Europe, Ministerial Consultation: editorial note 205
Examination performance, anxiety and study methods, preclinical students 416
Examiners, training and experience 290
Experience, practical, education for 189

Feedback, immediate, effectiveness during Objective Structured Clinical Examination 184
Final examination performance of 1981 entrants to London medical schools, prospective study 305, *abs*

Gender and student learning, preliminary findings: short communication 201
General practice, consultation skills and medical performance, effects of

vocational training 512
continuing medical education, current practice and future needs 308, *abs*
house officer, different experience 322
pre-registration posts, chance of a lifetime?: editorial 319
teaching medicine, Guy's Hospital experience 504
General practitioners, distance learning 308, *abs*
Good doctor, factors contributing 3
Guy's Hospital experience, teaching medicine in general practice 504

Health, care team, variations in functioning 309, *abs*
population, setting educational priorities 429
promotion in medical curriculum 440
History-taking skills course for medical students, lectures and skills workshops as teaching formats 364
House officer in general practice, different experience 322

Ignorance in medicine, curriculum 24
Indian student doctors' attitudes towards primary health care, poverty and related issues 463
Information technology in postgraduate medical education 472
Innovative medical education programmes, Egypt and United States, collaboration between 333
In-service clinical education, curriculum implementation problems 282

Large classes, pharmacology practical, Nigeria 409

Maastricht Medical School, curriculum of communication skills teaching 55
Medical education: editorial 219
in Africa, Ministerial Consultation, Abuja, 5–7 July 1989: summary report 560
changes 252, 328
evaluation, analysing qualitative data 498
in later 19th century, science take-over 480
Medical school admissions, comparison of performance, from different high school systems, Kuwait University 395
as social organization 242
as social organization, sources of resistance to change 228
Medical students and AIDS: correspondence 310
population changes and progress in medical schools, Belgium 39
problem, types encountered by clinical teachers on clerkships 14
Medicine, academic, new approach to preparing students 265
Microcomputer for objective structured clinical examination scoring 376
Ministerial Consultation for Medical Education in Europe, Lisbon, 31 October to 3 November 1988: summary report 206: editorial note 205

Neuroanatomy, computer-enhanced learning 371
News and notes *see* Announcements
Nineteenth century, medical education 480

Objective methods revisited, structure and content of course 10 years on 305, *abs*
Objective Structured Clinical Examination, immediate feedback, effectiveness 184
scoring using microcomputer 376
Old people, attitudes to, by medical students 81

Paediatrics, behavioural, instruction, residents' evaluation 447
clinical teaching, congruence between student and instructor perceptions 161
current place of learning objectives in: editorial 407
Performance testing, written test as alternative 97
Permanent Working Group of European Junior Hospital Doctors 339
Pharmacology, practical for larger classes, Nigeria 409
problem solving, student achievement 307, *abs*
Postgraduate, medical education, policy statement 339
qualifications of British doctors 348
Pre-registration posts in general practice, chance of a lifetime?: editorial 319
Pre-registration year 1983–1988 526
Primary health care, poverty and related issues, Indian student doctors' attitudes towards 463
Problem-based learning: editorial 479
essentials. Medical Education Booklet No. 23 539
medical programme, approaches to learning, developmental study 262
Problem-solving, diagnostic, medical students', phenomena 108
doctors', variability as measured by open-ended written patient simulations 270
instruction during clinical clerkship, description and preliminary evaluation of programme 179
pharmacology, student achievement 307, *abs*
and problem-based learning: Correspondence 311
test scoring by nurses and doctors, handicap of expertise 381
Problem students, types encountered by clinical teachers on clerkships 14
Psychiatry, liaison, development and evaluation of method of teaching to medical students 174
undergraduate, clinical competence, factor analytic study 422
Psychogeriatrics, education 453
Psychological tests to measure

effects of medical education on students' interpersonal skills 492
Psychology teaching, preclinical, medical schools survey, United Kingdom 77

Qualifications, medical, United Kingdom 1977 and 1983 62
Qualitative data analysing, ethnography and evaluation of medical education 498

Recruitment of medical students, differences between schools 30
Research and teaching, medical school graduates' activities (Albert medical schools — 1973–85) 305, *abs*

School admission criteria, reliability of short-listing medical student selection 147
structure of pre-selection judgements 136
Short-listing, applicants from UCCA forms, structure of pre-selection judgements 136
reliability in medical student selection 147
Simulations, patient, and variability in doctors' problem-solving 270
Smoking among medical and engineering students 196
Social organization, medical school as 242
medical school as, sources of resistance to change 228
Sociology in medical curriculum, Great Britian, survey 152
Specialty choices, medical students, effects of clinical clerkship 413
Staff development, educational games including Diffusion Strategies Game 306, *abs*
Stress, disaster, and the doctor 91
Students, *see* Medical students
Study methods and anxiety in preclinical students, causal relation to examination performance 416

Teaching, by medical students 70
and research, medical school graduates' activities (Alberta medical schools — 1973–85) 305, *abs*
Test, written, as alternative to performance testing 97

UCCA forms, short-listing applicants from, structure of pre-selection judgements 136
United Kingdom medical schools, graduates 1977 and 1983 62

Video, interactive, without tears, anatomy of tutorial production 307, *abs*
Videorecordings of medical postgraduates, use in improving clinical skills 276
Vocabulary test, medical, preliminary observations 307, *abs*
Vocational training 1988 selection 309, *abs*

Women doctors, career aspirations, qualified 1974 and 1977, United Kingdom 125; erratum 476
their future: editorial 1
West Indies University, Doctorate of Medicine (Internal Medicine) assessment: documentary report 399
World Health Assembly Resolution; World Federation for Medical Education 477
Written test as alternative to performance testing 97

Year 2000 curriculum 221: report 301
